# THE GREAT SUPPORT OF ITA AND MAECI

## Bologna: always a truly new adventure

Thanks to the support and collaboration of the Italian Ministry of Foreign Affairs and International Cooperation (MAECI) and the Italian Trade Agency (ITA), the Bologna Book Fair has been able this year to strengthen its international reach and foster opportunities for the publishing industry.

ITA and MAECI supported initiatives have been crucial for the development of BCBF 2023. These include the organisation of an enhanced Invitation Programme involving 150 high-profile professionals from 70 countries, and business areas: Spotlight on Africa, World Lounge, BolognaBookPlus, Comics Corner, the Italian

Illustration Lounge at the Illustrators Survival Corner and Translation focus.

In addition to these initiatives are two special features to celebrate BCBF's 60th anniversary: an exhibition to celebrate Italo Calvino, a global example of excellence, and a showcase and huge event programme around 10 international illustration stars.

These initiatives are complemented by an intense matchmaking programme with Italian publishers and illustrators, organised in cooperation with AIE-Italian Publishers Association.

# SPOTLIGHT ON AFRICA

## The excellence of African publishing

Africa is an extraordinary reservoir of potential new readers, ideas and creativity in the publishing industry, in particular for children and young people. With this in mind, BCBF hosts a new edition of Spotlight on Africa, in partnership with the International Publishers Association (IPA) and with the support and collaboration of the Italian Trade Agency and the Italian Ministry of Foreign Affairs and International Cooperation. This year the programme brings to the Fair 26 excellent publishing houses from 11 African countries and presents a panel dedicated to the African publishing scene and reading culture at the Authors Café.

# THE BOOK DASH SHOWCASE

**HALL 29  
C38-E37**

The Spotlight on Africa 2023 welcomes the showcase of Book Dash's 12-hour magic book-making publishing model

Book Dash is a social impact publisher from South Africa that developed a unique way of creating high-quality picture books very quickly, in an effort to address a lack of diverse children's books accessible to all. Book Dash has published 176 titles in this way, and BCBF is proud to host the inaugural Book Dash outside of Africa. The event involves African creatives including authors, illustrators and designers in the 12-hours production of books from scratch and concept to publication. The new picture books created are presented at Authors Café on March 8.

# TRANSLATORS CAFÉ

## The BCBF Translators' Café turns 20!

Twenty wonderful years devoted to the magical art of translating children's books, its peculiarities, challenges and tricks; a myriad of meetings, workshops and conferences led by professional translators, publishers, scholars and specialists: to celebrate this important anniversary the rich programme of the Translators Café starts with a cheerful carousel with the translators who made Calvino's books travel in other words and in other worlds, Reinventing Calvino: a talk with his translators.

The collaboration between BCBF and CEATL (European Council of Literary Translators Associations) is consolidated with the international conference Translating Children's Literature: Juggling Between Boundaries. And the opportunity is renewed to expand the World Directory of Children's book Translators to children's book translators from all over the world.

# THE ILLUSTRATORS SURVIVAL CORNER

**HALL 30  
D45**

The place where artists can find the tools to enhance their career

One of BCBF's flagship initiatives, the Illustrators Survival Corner is where artists from across the globe can gather, share experiences, and receive professional advice on their craft and profession. It offers a wide programme of masterclasses, workshops and portfolio reviews, delivered by internationally renowned artists and publishing experts. This year for the first time the traditional portfolio activity is joined by the Portfolio Play, a game-guided by professional illustrators or art directors to learn how to select images and compose the ideal portfolio. The Survival Corner also includes an Italian Illustration Lounge dedicated to professional meetings between Italian illustrators and international publishers, developed in partnership with ITA and MAECI. The Illustrators Survival Corner has become a very successful format and is now hosted in many international venues, the first of which is China Shanghai International Children's Book Fair, where it is now a regular feature.

As part of the Bologna Grand Tour, the Illustrators Survival Corner has been featured in international fairs such as Frankfurt, Sharjah, Guadalajara, Montreuil and Montréal.

# 60! LANDSCAPES AND PORTRAITS OF BCBF

## The 60<sup>th</sup> Anniversary Illustration Contest & Exhibition

To mark its 60th edition, BCBF launched an international illustration contest open exclusively to those artists selected for the Illustrators Exhibition over the last decade. Using only the four colours of the BCBF logo, illustrators were asked to produce an illustration focused on a memory of their visits to Bologna. The jury comprised the ten great artists selected to create the covers of the last ten years' Illustrators Annuals.

This stellar jury selected these 20 illustrations that best describe the atmosphere, people, places and magic of Bologna and the Fair.

Chialab design studio, curator of the BCBF visual identity, decided to take a risk and break with the tradition that demanded the visual identity be created from a single illustrator with its own particular style and identity.

The colours guided the team, showing them how they could seamlessly juxtapose, assemble, overlap and multiply the 20 illustrations on show at the Services Centre.

Gradually, they wove them all together, cutting out and assembling extracts and details. The result was new scenarios, new characters and new environments that together spoke of the many individual talents that made up the whole: a concert with 20 musicians playing a 4-colour score. What better image for this year's slogan "Still rocking at 60!"

To celebrate together its 60 candles, BCBF invite the illustrators' community to draw and leave their memories of the Fair and a happy birthday message at the Services Centre!

# CENSORSHIP OF BOOKS

## What is the state of children's book banning around the world and what is being done?

Censorship is an ancient practice. Whether it be Cato the Censor, or later Popes to blacklist certain books, the goal is always the same: to control, redact and censor, in other words, to stop disclosure. Censorship takes place in many sectors – the press, communications, politics and cinema.

Totalitarian regimes exert strict controls. But why is there censorship in more democratic countries? And why, around the world, are some children's books banned? Long-debated, this issue will be a discussion focus at Bologna Children's Book Fair, following up on David Levithan's troubling and visionary article in the New York Times of 23 September 2022 entitled *Standing up to the new censorship*. In his article, Levithan - America's 11th most censored author according to PEN America - talks about how censorship today has become a tool used to attempt to deprive communities of their voices and erase their history.

A panel of experts, including publishers and scholars from around the world, will give their views of the state of children's book banning around the world and of what is being done.

## Women in Publishing

BCBF celebrates the International Women's Day presenting a special area by PublisHer, with an event programme designed to honour women.

PublisHer was created in 2019 to empower women in publishing and address the industry's continuing gender imbalances.

Bodour Al Qasimi, the Founder and CEO of UAE-based Kalimat Group, created PublisHer for professional women to discuss pressing publishing industry issues, learn from each other and seek creative, scalable solutions to the gender-based inequities that still characterize publishing and other creative industries worldwide.

In the PublisHer Area at BCBF numerous meetings are scheduled as well as a special book exhibition. The PublisHer Area is also open for networking with meeting tables available, contributing to a survey for stakeholders in the publishing industry and overall opportunities to learn more about PublisHer.

# ARTIFICIAL INTELLIGENCE

## A threat or an opportunity?

Artificial Intelligence (AI) is the word on everyone's lips: for this reason it is one of the most topical issues of this BCBF edition. For publishing it will bring enormous change, some wonder if it could replace writers, editors, translators and even illustrators. The recent release of new powerful AI models, with acclaimed tools like chatGPT, are forcing us to rethink how we work and create. These lead to questions on the subject of intellectual property and on the very concept of authorship.

Should publishers be worried? The truth is, solutions based on AI are already everywhere. Many publishers now implement AI in marketing and distribution. It is also a valuable tool in editorial and production.

# CHILDREN'S LAUREATE

A collection of eminent children's book authors and illustrators gather in Bologna this year.

Hosted by the Bologna Children's Book Fair, Laureates from 7 countries are part of the 2023 programme. The International Laureates Summit, that takes place again at BCBF, continues the tradition of bringing together a growing number of Laureates and Reading Ambassadors from around the world. Each country has its own unique focus but all are united in their goal to encourage all children to read. The Summit is an opportunity for Laureates and their support organisations to discuss reading promotion in their respective countries and to share their work and their future plans. The programme presents also a public talk featuring all 7 Laureates, chaired by Julia Eccleshare, at the Illustrators Café.

In partnership with

## THE ORIGINS

In 1999 the organization BookTrust appointed the first Children's Laureate, world-renowned author-illustrator Quentin Blake. Since then, every two years, a writer or an illustrator, who has made a significant and lasting contribution to the world of children's books, is awarded the position to champion children's books and reading. Nine countries have followed the UK's example and have appointed their own Children's Laureate or Reading Ambassador. Even though the organizations are different and function of the Laureate varies between the countries, they have all a common objective in promoting literature and reading among young people.

# SDG BOOK CLUB

## Multilingual reading lists on the UN 17 SDGs

BCBF is partner of the Sustainable Development Goals Book Club. The project is inspired by the United Nations 2030 Agenda for Sustainable Development and presents a selection of books for children from 5 to 12 years focusing on each of the 17 SDGs in all six official UN languages—Arabic, Chinese, English, French, Russian, and Spanish. SDG Book Club aims to use books as a tool to encourage children to interact with the principles of the Sustainable Development Goals through a selected monthly list of titles from around the world.

The SDG Book Club is also expanding: in addition to the SDG Book Club in the UN's six official languages there are now chapters in Africa, Brazil, Indonesia, Norway and Portugal.

The SDG Book Club is organised by the UN in collaboration with International Publishers Association (IPA), the International Federation of Library Associations and Institutions (IFLA), the International Board on Books for Young People (IBBY), the European and International Booksellers Federation (EIBF), and the BCBF (BCBF).
